

A MUSKOKA WINTER WONDERLAND

Fractional Ownership offers year-round fun!

THE TEMPERATURE OUTSIDE IS steadily dropping ... and the snow, well, it just doesn't seem to quit! Yes, it's that time of year when all you want to do is get indoors, snuggle up and stay warm.

There is, however, a remedy for these winter blues, and it's located just a short jaunt to the north of Toronto in the heart of magical Muskoka: **The Landscapes — Lake of Bays**, a place where all that snow becomes a winter wonderland full of activities and adventure.

A fractional ownership development, The Landscapes offers Owners a custom designed Clubhouse where you can curl up with a good book by the magnificent Muskoka Fireplace, enjoy an impromptu game of billiards, or simply relax in front of the big screen TV. Of course, another wonderful way to warm up is to have a soak in the hot tub that will soon be in place, or take in a soothing massage with the in-room spa service. All of this and Owners can still look forward to even more first class amenities including the Welcome Centre, the Pool & Fitness Centre that will house an indoor/outdoor pool, and a stunning Boathouse overlooking the waters of beautiful Lake of Bays that will be completed later this spring.

For those who really want to experience everything a winter in magical Muskoka has to offer, the skating rink located just outside The Clubhouse is a

great place to start. Nearby, one can also find a number of cross-country ski trails, downhill skiing and snowboarding runs, even snowshoeing ... and let's not forget the snowmobile enthusiast who can pick up the trail that runs close by The Landscapes' property.

And, if all of this cold weather is still just too much to handle, there are numerous exchange opportunities available through The Registry Collection to get you to that sunnier destination you may be dreaming of. — by Kim Kerr
